## (DATA SECURITY & ENCRYPTION TECHNIQUES)

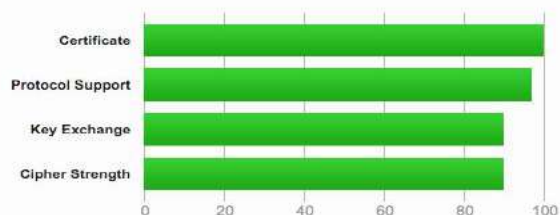

Security Seal

Result of :

<https://website.grader.com/>

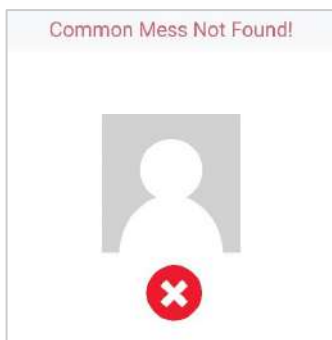

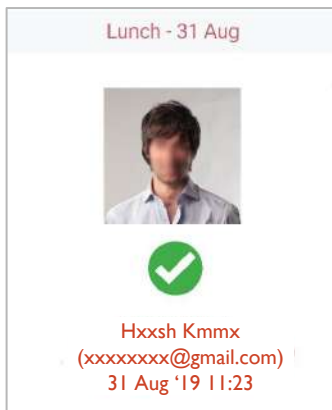

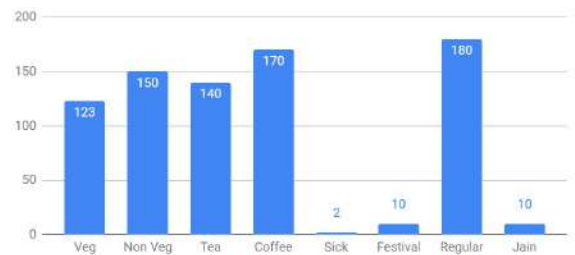

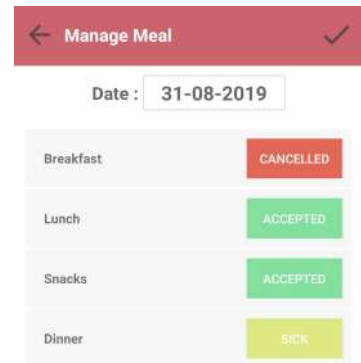

### SSL Labs Report: dron.limited

- **Account Password** secured with **SHA256** hashing method. SHA256 hashing function cannot be reversed. It protects the password from preimage attack and collision.
- **Session Hijacking Protection:** IP Addresses, User Devices, User Requests monitored
- **Transport Layer Security (TLS):** TLS1.2 with HTTPS, which is a cryptographic protocol, is used to increase security over computer networks

## Smart Food Preparation according to Cancellation, Festival & Preferences

- Allows users to cancel a meal with app.
- Know your audience preference counts like Veg / Non - Veg, Tea / Coffee, Regular / Jain
- Reduce your food wastage by managing food preparation
- Mess can profit by preparing the required amount of food according to cancel, counts.
- Profit increment can be used to improve the quality of food

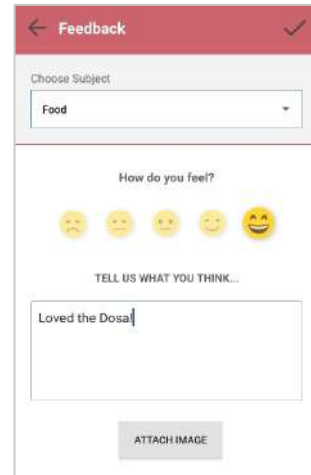

## Track Non-Registered Users Eating Unethically

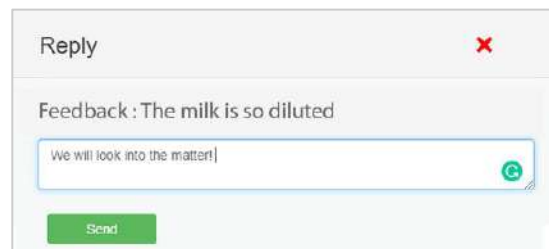

- QR Data stores your Cibofy ID and Info
- Get attendance and verification of valid mess users by Officials when required
- Users can upload Profile image and can help to identify at your mess
- Running multiple meal package at a single mess and having difficulty in verifying users' meal package? Now, verification possible with our app
- It also enables to detect non-subscribes or unauthorized users

## Feedback to Provide Instant Solutions

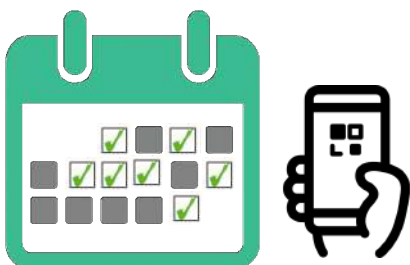

- Understand Problems Faced by Users
- Post your Feedback by category (Food / Staff / Service / Hygiene / Others) & Rating
- App feedback forwarded directly to higher authority of your mess management
- Reply User on their feedback
- Reorganize the mess menu through feedback and survey module

The screenshot shows a 'Feedback' form with a red header. It includes a 'Choose Subject' dropdown menu with 'Food' selected. Below this is a rating section titled 'How do you feel?' with five smiley face icons. A text input field contains the text 'Loved the Dosa'. At the bottom, there is an 'ATTACH IMAGE' button.

The screenshot shows a 'Reply' form with a grey header and a red close button. The feedback text is 'Feedback : The milk is so diluted'. The reply text input field contains 'We will look into the matter!'. A green 'Send' button is at the bottom.

## Digitalized Attendance Records to Track Everyday Users

- The days of the mess card are gone
- Switch to the latest QR technology and reduce your vast paperwork
- Monitor your audience's timing and find the peak time for you to handle the crowd
- Understand through records the expenditure towards the number of users

## Survey to Know What Your Audience Wants

- Reach Out to Unknown Audience
- Review your audience requirements and effectively connect to an unfamiliar audience
- Time-to-time interaction with every user to help in catering needs of majority of users

## Food-Wastage Meter for Goal Tracking and Bringing Ethical Approach

- To instill among users the harsh reality of food wastage
- To track our committed goals towards totally avoiding food wastage

Food Waste Counter
